Dedication

In Memory of:

Mr. Richard A. & Mrs. Hannah A. A. Usuanlele (Parents, RIP)
Madam Elizabeth Tanimowo Kolade (Grandma, RIP)

This book is dedicated to:

Our Heavenly Trinity; our real source of life and everything that sustains life here on earth and in heaven.

My mini-me Prince (Professor) Ademola J. O. Usuanlele Jnr., all members and partners of the Groupe Haus Inc., family.
Appreciation

To God be all the Glory! I want to use this opportunity to thank the Trinity of God the Father, Jesus Christ the Son, and the Holy Spirit. I thank my senior brother; Jesus Christ for not taking His eyes off me. Even while I was in the tunnel, he sent bread and meat of life to me regularly. He anointed my horn and promoted me to the most esteemed position of a “Peace Maker” in heaven and on earth.

I give special thanks to my bosses for their feedback and supervision and because of them my books are written.

A special thanks to The AD.MO.VI.CH Group, ICSR Group, all members and partners of Groupe Haus Inc., XOXOXO

Thank you! Merci beaucoup! Wa Ruese! E Se Pupo!

Ademola Usuanlele

fessors; Professor (Dr) Pierre Flor-Henry
A PEEP INTO THE DEEP AUDIO 1

Calvary greetings! Calvary greetings! Greetings from the Trinity of God the Father, from Jesus the Son and the Holy Spirit and also greetings from me, the Peace Maker. The time right now is 4:32am in the Kingdom of God, in the City of Champions of Edmonton, Alberta Canada.

Today’s date is the year of our Lord 2018. It is the month of November, the 5th day of the month. Today, we are going to open a new era, a new series.

This is something that has been close to my heart. I wanted to do, I tried to start in 2012. I have some materials in my home office. I am not too sure, but I will because of these series, try to look for them again because they do contain some critical and vital information that were revealed to me by the Spirit of God in 2012. This was after my November 2012 mission. A lot of doors were opened, my eyes and my spirit and my heart were opened, and a lot of things were revealed and filled into them.

I did not apply much then using the principles of Habakkuk 2:2 of documenting everything down, but I know I did capture some information which will be useful if I can find them. May God remind me of them for these series. I pray I find them so that people can use them to enrich their knowledge, broaden their knowledge and clear some concerns and grey areas in the areas of medical sciences, in various forms that have to do with various forms of wellness, mental health, psychological health, emotional health, spiritual health, and physical health. Praise the Lord.

Before I go into the message - A PEEP INTO THE DEEP, I would like to say a quick word of prayers and that is, “Lord I thank You for what You are about to say today. Let it be Your utterance only. Let it be word from Your mouth, let it be word from your heart, let it not be my own words, let it not be from my own head. Let it be my heart speaking from what You have infused inside of me. The vision has been put down in writing, it is just to explain it to the people. Give me utterances that those things they have heard before that they did not know.
Those things that they do not expect to hear, even from somebody like me. Let them hear them today. Let this be a contribution to the knowledge that has been existing. Let it be extra. Let it be a source of discovery, a source of clearing, a source of expantiation of the current knowledge. Lord, You are not a man that You should lie. If You are revealing it, there is something You want to do, You do it.

Thank You for Your word, thank You for Your knowledge, thank You for the divine wisdom, thank You for the courage, thank You for the passion that is going to allow me to say this. Give me that wisdom that I will be able to finish it. Every other party or parties that will work on this project, let them be as committed and dedicated.

Let Your word fall into their hearts. Let it go straight down toward their souls. Let it do what it needs to do. Let them be able to receive the right knowledge from it and use it to preach the word. This is not about money, this about showing that You are the God. All knowledge, all sciences, everything is subjected to Your power and authority. Use me as an instrument.

Those who read it, let it be a miracle book, a miracle coin that it is meant to be in their hands. Father thank You for all the coins You have given unto me. I pray that you guide us as we use them and convert them into knowledge as You convert some or all of them into cash. Lord, You know what You are going to do with this, take absolute control.

This is going to be a free work. This is going to be a passion of love, labour of love. Let it not come in vain. Any tongue, any soul, any spirit, any devil, or demon that wants to rise against what You have said here Lord, subdue them into submission, subdue them into submission, let them appreciate Your power. Let them know that all knowledge comes from You.

Our people perish because of lack of knowledge. Our people perish because they do not know this knowledge I am going to share now. Lord, use me as an instrument for in Jesus name we pray. Amen.

We have a God, who never fails
We have a God, who never fails
We have a God, who never fails
Jesus never fails, Jesus never fails forevermore.
Amen, Jesus never fails (3 times)
Jesus never fails (2 times)
Forever more.

We are standing upon the solid Rock
We are standing upon the immoveable Rock
We are standing upon the firm Rock
We are standing upon the unshakable Rock
We are standing upon the unmelting Rock
We are standing upon the everlasting Rock
We are standing upon Jesus, who is the Rock of our lives
Who is the Rock of our salvation
Who is the true and only Rock

We stand upon You Jesus, move around with Your Spirit, so that we will be able to
go into the deep, into the inner deep and inner deep and pull out the treasures,
You have kept there. Let us go there by fire and we must come back by fire. We
are ready to go, let us do it. Amen.

So, the title of this project or book or video in English, it is "A Peep into the Deep"
A Peep, that is looking into the dark. A Peep into the dark, it is an exploration of
the inner, interior, and exterior dark matter. The dark matter is where everything
goes in and it does not come out. Nobody knows where it is gone, nobody knows
where it disappears to.

So, we are going to look into that "dark matter" and the three stages, three lev-
els, three types of dark matter and this is the preface we are talking about in this
book. We are in the preface, we are talking about the title, we are talking about
the preface, PREFACE. So, there are three levels of dark matters, those that are
within (inside) us and some are exterior of us.

There are those dark matters when you go into the deep Galaxy, into the deep
space, where things disappear. Where do they go? What is behind that dark mat-
ter? Who has gone in and has come out? Who knows? That is what we are going
to talk about. It is going to be an interesting discussion and an interesting reve-
lation.
You know I am not reading this from any book. I am not a medical doctor, I am not a psychologist, I am not a psychiatrist, I am not a social worker, I am not a sociologist., I am not an anthropologist. This is going to be based on revealed knowledge and if you have any doubt, go to the Lab, go to the scientist.

Please go wherever you want to go, go to the occult, go to heaven, go, and confirm. If you see anything not correct or complete, come back for us and we will guide you in the right direction you may have gone the wrong way. Praise God. So, that is the end of the preface.
In this introduction, we are going to just mention briefly all the various topics. We are going to use these topics to become chapters or sub-chapters in the main book. This is going by progressive elaboration we have not written anything down. We are going to be firing it straight, topic by topic as we get utterances.

We can do as many as we can do at a time. We can get a break. The hope is to finish it, rush this thing. I am going to dedicate it to the honour of Professor (Dr) Pierre Flor-Henry. He is the Professor of Professors of Professors. What I mean, over his career, he is in his eighties and retiring by December 2018 according to him.

He has trained many professors, many doctors who have become Professors, those professors have trained doctors who have become Professors, maybe up to four generations of doctors or professors. Praise God!

So, as you see him a professor, he is not a fair size man. He is a small petite, confident, interesting to chat with. He reminds me of my late dad, an intelligent man, a very smart guy. I think this work, that God has put in my hands by the grace of God will be the missing piece he has not been able to find in his career.

He has not been able to say, I have found this, I have done enough QED; that we talk about in proving equations, proving theories, proving concepts or postulations.

The principles behind me in doing this, using the Galileo's principles or what we call in 1 Cor. 13:8-10, there, Apostle Paul talked about love, how with love you can go as far as possible. There is no end to love because love is God, love is Christ Jesus, love is the word of God.

There is no limit to what love can do. This is a labour of love. I will repeat it again, it is the labour of love. It is done out of love to show how strong and powerful my God is and there is no doubt about that. I am not ashamed to say that is the gospel of God, that the wisdom of God is superior to every other wisdom that is out there, that is available.
So please pay attention, do not pay attention to this with a biased mind, not with remorse, regrets, jealousy. Just pay attention. Whatever you can take, take and whatever you cannot take, throw it away in the garbage, in the toilet but that does not matter to us. It does not make them wrong. We know what we are saying. Our talk is pure, authentic, raw, raw straight from the firing line. *Ni Ka Ra Ba Ko Se*...(praying in tongues).

So, continuing the introduction like I said we are going to talk about the topics, we are going to cover the materials. It might be a big book, it might be a small book. It depends on how God leads us, how much you can remember, how much you can collect, how much you can document. How much you can flow in the same direction.

We are trying to organize it so that we can go from one topic to another and we are not just shooting, shooting down, shooting to the air, shooting garbage into the air. So, praise God, do praise God.

The 1st topic we will be looking at is The Spheres and Space. They are almost related. We will be interchanging them. We will talk about it and differentiate them

2nd topic will be The Existence and The Inexistence.

3rd, we are going to talk about Time and Lack of Time.

4th, we will talk about The Galaxy and The Universe of Now, Then and Later.

Topic 5, we talk about The Message. Our Message or Their Message. Na Ku Ra Ba Shake...*(praying in tongues)*.

Topic 6, we talk about The Activities, The Attacks, Interferences, Interceptions, the aberrations that cause people to lose control of themselves, lose balance, lose their orientation, faint, collapse, go crazy, breakdown, one thing or the other. The activities, interference and aberrations that has to do with the heart and the brain.

Most of our focus is going to be based on the heart and the brain. So, we will try to explain which one we are talking about at a certain time so that you know clearly what we are talking about.
Then we have 7th; The Inner and Outer Battles. The Control of the Mind, Soul, and the Spirit. This is about the activities that occur in the mind or outside of the mind and some factors that influence people losing their mind, their soul and losing their spirit.

**Number 8**, we talk about the Instigators. Things that can make us, cause us some effect, that can make us lose our mind, lose our spirit, lose our soul. We will look at the chemical areas, the physical, the spiritual and what have you.

**Number 9**, the management, and approach that work and endure in the care of the instigated and challenges.

**Number 10**, we are going to look at the way forward to increase and maintain sanity of everybody at an acceptable and humane level. Some places, some quarters, some communities because of stress, one kind of thing or the other, that majority of the people have one form or the other of mental illness or disorder. So how do we reduce the percentage, how do we minimize it that we will bring it down? We are going to look at them this section number 10.

**Number 11**, we are going to look at the materials from earlier incursions, if they can be found. So, I am going to check some of the writes up I have for counselling somebody in WhatsApp and pull it out and see if I can make it general without mentioning names or anything and then the 12th will be conclusion and farewell note to the Professor of the Professors, Dr Pierre Flor-Henry.

Thank You, Thank You, Jesus, thank You, Father.

So, this is the introduction we talked about, the preface we talked about the titles. We are going to end it here for now. We are going to put in the next time, we are going to go to topic 1. So, we take it like this, we take it a little bit at a time. We might do 3 to 4, 5 topics in a day depending on how we are led.

There is so much work to do. We do not want to do one and just leave others to lay fallow. So that nobody is overloaded so that nobody is under pressure. We can get the results we want. By God's grace, that everybody will be happy, but we have to finish this quickly so that we can have it ready even if it is in the manuscript form for Professor Pierre Flor-Henry.
Thanks, Lord, thank You, Jesus. Lord, we ask that this work as we are doing it, let it be fire to the kingdom of darkness because the Truth from the deep, we are going to reveal it. We are going to reveal it in the name of Jesus. Those who believe in Jesus can access Jesus with it but those who do not believe cannot accept the message.

I know where it is coming from, I know where it is going and it shall surely go there, it shall surely get there and return with testimonies for in Jesus name we pray. Praise God. Thank You Lord for everything, thank You for the ability to have been able to start it finally and we shall get to the end before the end of this week. Thank You, Jesus, thank You, Lord.
Calvary greetings to you my brethren, Calvary greetings to you my brothers and sisters, Calvary greetings to all my friends, Calvary greetings to all the lovers and believers of Christ Jesus our Lord and personal saviour.

This is the Peace Maker Ademola Usuanlele doing the second recording for the main body of the book or project called "A PEEP INTO THE DEEP" An exploration of inner, interior, and exterior dark matters.

It is basically where we will be talking about; etching, chipping away little by little some of the misconceptions, some of the notions bringing in some ideas and wisdom of God concerning things that we do not see. Things that are not controlled by us.

Things that are around us. We know that they are here, but we have no control over them. Things that are strange and mysterious. Things that get people's mind disturbed, things that make people behave angrily or behave unkindly because they cannot see. They just believe it is not there. We that is in the know, we know that they are there. Praise the Lord.

We have talked about the preface and the introduction in the recording number one. This is recording number two of "A PEEP INTO THE DEEP". The 1st topic or chapter is about the sphere and space. Sometimes, people misunderstand them. What is a sphere and what is space? It talks about the atmosphere, which is the area within our range here, where we have oxygen and everything. We have heard about the stratosphere, different region and everything. We have space. The sphere, we describe it as the extent to which human mind and thought can reach; as far as we can get, that is within our sphere.

Then there is the space. Space is the area after our mind can get to. So different people, they may not know the way they rule their spirit, they rule their lives, they have different limitations. Some people cannot think beyond their nose.

Some cannot think beyond the kilometre. Some cannot see far anything. So, your space and sphere depend on where you have developed yourself to be. Some people have developed themselves spiritually in a godly way.
Some have developed themselves in satanic and demonic ways. But the thing is, the fact is everybody has its own space and sphere. So, your sphere is the extent to which you can reach, your mind can go but the problem is that if you want people to differentiate your space and sphere, you must change between using the brain and using the heart.

The heart is as big as the universe. If you open up your heart, you can go much further into space. Whereas the brain limits itself and gets within its sphere. Sphere of its influence, a sphere of its thoughts. If it goes beyond that, there could be headaches, there could be migraines, there could be mental breakdowns, there could be mental disorders if you go too far beyond your brain’s sphere. So be careful how far you go. Try to concentrate the energy, concentrate the force on the heart.

Let the heart do the going let it go and bring information to you and it will slowly dispense it to your brain and your brain will fully carefully interpret them and utilize them. Do not over rush the brain to download from the heart.

Do not overload the brain, anything can happen. Everybody has different capacities. Some people can study for hours. Some cannot study for more than thirty minutes, some cannot even study at all because the brain is not the same that does not make them a good or bad person.

They can have the sweetest heart, the best heart but they cannot do much with their brain. Sometimes or at the end of the day, it is said that those who cannot do much with their brain, have too much to worry about. They have much to think about. Those who think they can, they stretch it and stretch it and it gets to an inelastic position or it slacks. Thank God, praise God.

If you stretch the brain beyond its limits you can encounter other spiritual forces that can counter that stretch and then there will be what is called spiritual attack when you go too far. It is like you go into somebody’s house, you know they have a dog in the next compound, the next house or property.

You stretch your head across the fence and before you know it, the dog can just clip your face because you have trespassed. The person can shoot you because you have trespassed. So, do not trespass beyond your sphere. Allow your heart to go because the heart can go everywhere.
If you have a big heart, a sweetheart, you can go as far as possible for the sweet things. Those with evil hearts and evil mind can go as far as possible for the bad stuff. Praise God! So, that is sphere and space, that is topic one or chapter one.
EXISTENCE AND IN-EXISTENCE

Going on to chapter two, which will talk about existence and in-existence. The existence is kind of a tricky topic or chapter because existence and in-existence is; we will look at the fact that we are here. Now it seems like we are here.

Are we in the here now? Are we in the here in the past? Are we in the here in the future? Do we really know that? Are we in the now, in the past or the future? Because some things in the past, seem like they are in the future, some things in the future seems like they are in the past, it seems like that it does not exist.

How do you tell where you are, only God, Jehovah Jireh, can truly tell you where you are but if you are a child of God, you have the ability and power through the Holy Spirit to be able to operate in the 3 planes. Your mind can recall back, or it can go forward.

I will give myself as an example when I was young. I could not remember things too much further in life but just some few years back but later on by God's grace my heart got opened. I could remember almost everything that happened up to year 2, 2 years of age.

Then in 2012 by God's grace when I attained the spiritual status of a Christian Guru. My mind went back up to 400 years. And there lie big mysteries that are so limited, obliterated, you know that is removed from history, this record that has not been told because of some controversy but God has revealed all to me.

It was as if I was there because we watch these things as if it is a movie. So, if you check some historical facts, they confirm it. You go and confirm it. Praise God! That is the state of existence and Inexistence. Later on, during the Agape love missions of this year (2018) started 15th of March Olympics. From March 15 to about end of April before we go back, God expanded my mind further, I could see back to just before the Trinity was created. And it has stopped there. I have tried on some occasions to ask the spirit of God. How did you guys get created? I want to know more, how you came about it.

You could not have always been there. They told me, I put it in one of my recordings. He says they are everything that is made from nothing. That is why they can make everything from nothing, understand?
They are nothing; from nothing they made everything. And from everything, they can make nothing. So just know that principle and understand it. The Spirit of God and the Trinity, they would not tell me, I want to know, maybe one day, they will be so nice to me by telling me. I may have to do something good and spectacular.

Maybe I will capture the spirit of Lucifer, I will put him in a bottle and let the world see him inside the bottle and put his flesh upon him. And they will see him there.

Maybe that day, God will say Ademola you have done well thank you my good son and I have forgotten the verse, thank you, my good son, come and have rest, you know. So, you will have this thing to know the proper thing to do. The truth is that, at this moment, you do not really need to worry about all these things, just live in the moment in the presence of God.

Things in your future will be taken care of. Things in your past that are relevant, God will remind you of them. Those that are not relevant forget it but know for a fact, we here, we have no evidence to show whether, we are in the now, in the future or in the past because, in the presence of God, this time we are looking at is almost no time for God.

Almost no time, 2 seconds. How can you differentiate 1seconds and 2 seconds? Oh, I was in 1 second now I am in 2 seconds in the heavenly clock. Praise God that is the truth about existence and inexistence.

The important thing like I said, is to remain focused on the now. God says, worry not about tomorrow. Forget the things of the past. Whatever is relevant, God will bring it. If you need Him in a battle, God will remember you.

If you need any word you have learned before, God will remind you at the point of your need. Do not try to be racking your brain. what can I remember? Just be enjoying yourself. Be thanking God. Be doing things as you are led, and you will be okay. Praise the Lord, hallelujah! Hallelujah!!
TIME AND LACK OF TIME

Then we go to topic number 3. Topic number 3 is talking about time and the lack of time. Time and the lack of time. Sometimes some people living in this world think that they have the whole time in the world to do what they want to do.

Somebody needs help. They say do not worry I will think about it and I will get back to you. Sometimes they do not really get back to you. Somebody is in the hospital they want to visit. Oh, maybe I will go tomorrow, the next thing, the person is dead.

And they want to be the person that will cry the loudest. Why? Are they crying because they missed an opportunity to show everybody that they are not wicked? So, it is important that the time used to be used well.

In this world, we think we have a lot of time. The truth is that we do not really have time. Time is of the essence, time is essential. You do not have control over time. God has control over time. You can be awake at this moment. The next moment, you are gone. You know somebody is awake this morning, the next moment, they are gone. Sometimes they do not even need to be sick. Anything can just happen, accident, they just knock their face against the rock. Hit their head down in the bathroom anything, anything you can hear the person is gone.

The young man is this and that it does not matter anything. They are human beings. Do not see anybody in terms of their age or youthfulness to determine how long they are going to Live. That does not count in the kingdom of God.

It does not count my dear. There is really no time. They say one day in heaven is like a thousand years on earth. So, if you calculate a thousand years with the normal age we live, maybe it will be a hundred years.

That is one day divided by ten that is 2.4 hours, that is a hundred years. Imagine 50 years that is about 1.2 hours, that is it, that is few minutes in heaven. It is not much time. Do not waste your time, do not waste your energy. Do not do things you are not supposed to do. There is really no time.

Time is controlled by God. The time is determined by God for everything and use your time well. Use it to do good because that is the investment that you will
cash in the kingdom of God. If you do more investment of your time here and your resources. You have nothing to draw from by the time you need to cross from life into eternity, from eternity into eternity.

You may end up in hell fire because you may be seen that wicked, selfish, self centeredness and there are cases to be selfish. So, build yourself and prepare yourself for the thing you are going to do. That is okay but say you have what you going to do, you refuse to do it.

You have money, you refuse to help. You refuse to go for volunteering, you use to go for evangelism, you refuse to go. You refuse to dance in Church, you refuse to go to Church for one reason or the other. So, all those things count. Praise God. That is the end of chapter three.
GALAXY, THE UNIVERSE OF NOW, THEN, AND LATER

Chapter four, we have the topic of the Galaxy, the Universe of now, then, and later. We will try not to go into it too much. Not that we do not want to tell you, we do not want to spoil the story in the book, The Principles of the Galaxy of the earth and the Universe.

The principles book, it is going to be a little detailed of what the world looks like now, after life. What, it will look like after our brief stay in heaven and further journey after that life in the physical has gone by. It is there in that book.

It is carefully and simply written there. If you read it, you will find it. If you cannot find it, it means you did not read it properly. Praise the Lord. So that is the way we see it. You must know that there are different ways of making it to heaven.

There are some different things you need to do but first and foremost, you must be born again. So, when you are born again, you will be able to enjoy it later and in the then. All the goodies of the patriarchal before Christ enjoyed in their time.

You will be able to draw on it and benefit from it. That is now the then. You are here benefiting from the then, benefiting from what is happening now. The new revelations you are going to benefit from later, if you are here or not for your family and your children to enjoy in terms of prosperity, good life, peace, and everything.

If you make good things and do good things, God will protect your family whether you are here, alive, or not. So just know that, just know that it is especially important. Do not be weary, do not be panicking, do not be fretting too much saying oh, what is my family going to do.

Concentrate, concentrate on saving yourself then save the members of your family, provide for them. Provide for yourself, live a good life, do not kill yourself because of anything. Do not be in a hurry to go to heaven.

Make sure you are called. If you are not called, if you go there, they will not let you in because you are not qualified to come in. When you are qualified, they will come and get you in Jesus' name. Praise the Lord, praise the Lord.
THE MESSAGE, OUR MESSAGE, OR THEIR MESSAGE

So, **topic five** is about the message. We have the message, our message, or their message. what this means is that this word of God that we are reading now, this story we are hearing now, is it ours, is it really for other people because this message was here before us or was it going to be years after us? That is not truly clear to a lot of people.

The truth is that from what I have seen, this message we have now, is a message for us, specifically and purposely designed for us but when you look at the history of the earth, the dinosaurs, and other things they are seeing in carbon-dating. This life is longer than what most people can calculate from just the Bible. So how did that happen, what happened then?

If you look at the creation, this, and that, we started from where God saw that the earth was filled with a void and there was deep and water everywhere, every kind of thing. What happened? How did the water get there? How did the deep get there? How did everything get in there? When did they come there?

It is the message of God, receive the message, let the message be a guiding post to you. Let it control and determine everything you do. Do nothing without drawing from the word of God or checking with God through His word. Praise God, Jesus is the word of God. The word of God is Jesus Christ and Jesus is our Agape love and we are saved because of His sacrifice on the cross.

So, praise the Lord! Just understand that the message is neither ours nor theirs so whether they were here before or they are going to be here after us, the message is for everybody. Praise God. We will stop here today.

**Number 6** is going to be like a big one so we going to stop. We do not want to go into it today because of time so that we don't overload whoever is going to transcribe this/it. So, Lord, we thank You for Your word, we thank You for Your word, we have received.

We thank You for Your message opening this discussion and we clear some path, clear some thoughts, helped some people to appreciate You more. We thank You for everything You are doing. We thank You for the wisdom You have given us.
We ask that You continue to open our brain, open our hearts, so that we may continue in good flow, good ideas, good message that will educate people, that will give life to the people, that will save many lives. Heavenly Father, show Yourself strong and merciful, show Yourself powerful in the lives of your children. Thank You Father for in Jesus name we pray. Amen.

**AUDIO 3**

_We have a God who never fail_ x3  
_Jesus never fail_ x2  
_Forevermore_

_Amen!!! Jesus never fail_ x3  
_Jesus never fail_ x2  
_Forevermore._

Lord, we just thank You for the opportunity to come before Your throne and speak as You give us utterances this moment. The time right now is 11:16PM on November 6 (Tuesday), in 2018. Lord, we thank You for the confidence and power and the authority that You have bestowed on us; the Peace Maker and the Peacemakers to move forward with this message.

The message that will cause some people to wonder "do they know what they are saying. We believe and know that all knowledge, all knowledge belongs to You. There is no knowledge that exist, that has existed, that will exist, that did not come from You".

You have exposed me, Your servant Ademola Usuanlele (the peace maker), to a lot of things. I need to put them down in writing, You said put the vision down in writing. Put it on tablets, so that those who see it will run with it. Lord, I thank You for revealing Your word to me and for allowing me to apply it in all situations.

Things I am going to say, are based on what you have revealed to me. And anybody who is in doubt can go to the Lab or can go and pray to You, to see whether You are saying it, or I am saying. I know where I am getting it from, and I trust You my Lord for giving me this information to be able to do all these things.
Without You, where would I have been? I am somebody in this Land that has seen challenges, seen all kinds of things, health issues, that have seen one concern or the other, that people have faith in, people have lost faith in.

People have lost faith in and have lost trust in for no reason. WHATSOEVER BUT You my Lord have remained faithful. You have remained true to Your word to me. All the prophecies that has come upon my life, all the prophecies of old that are in Your book of knowledge the Bible that has been revealed unto Your son.

They have been playing, playing like a movie, just like in the movies. We can see the good, we can see the bad, we can see the ugly. Thank God for giving us restraint. Thank God for giving us patience.

Thank God for giving us Agape love to be able to bear all these things and be able to understand what we need to do. Lord we thank You for this message we are going to talk about. We are going to see how much we can cover and see what we can do today... Thank You Lord.

So, this is the continuation. This is the recording number three of A PEEP INTO THE DEEP. This Peep into the Deep is an exploration of the inner, of the interior and exterior dark matter. By dark matter, we are talking metaphorically. We are talking about physically, spiritually and any other metaphysical.

Anyway, we are going to take it to where we are talking about, the dark matter, the things that we do not see, the hole that is there. The well from which the water pours out. The air that we breath it goes around up there. We do not know who is producing it and how did it get there, such things.

When people pass on where do they go. When people faint, where do they go? When people are in distress, what is happening to them? When people are broken down one way or the other, be it psychologically, physically, anyway, and anatomically what happens to them.

Where is all this knowledge coming from? Where are people coming from? They are making things from nothing, out of nothing. Where is this nothing coming from? Where is this nothing, who is the source, the supplier, how?
When people die, their spirit goes away. Where do they go? Do they go into the dark matter? They go into dark matters. When the scientist looks into space, deep space, they see things going into the dark matter and they disappear.

You do not see them again. They just vanished. And I believe the dark matters also produce these things, that is where we draw from. Thank You, Jesus. So, we have gone through some of it already.

We are now on topic number six or chapter seven. It depends on how you call it. This is going to be bordering on the activities, the attacks, the interference, the interceptions, and the aberrations.

So, we are going to try and drill into them little by little as far as we can go. We might not go too far so that the book will not be so long or boring or too technical, too spiritual that people may not be able to understand it. We will just give some basic information.

If you need to know more about anything. You write to us, you communicate with us. If you want to, talk to your God, you talk to your Pastors. If they do not give you the right answer contact us.

We will be more than happy to give you more explanation. We are not hiding anything. We are not pretending; we are not lying. We are not stealing, we are not asking for any money from you just to give you this knowledge as they have been downloaded from the kingdom of heaven. Praise God.

So, the first item is the activities. For the activities, we are going to look at the things occurring around us... And for these activities they are things we can do and things that we do not do that can lead to stress, health issues, marriage problems and these are some of the relevant things.

Inactivities, we can easily call them sin and no sin is just the easiest way we can say it. Somethings we do that are sinful can create spiritual problems for us. Somethings that we do not do that become sinful can create problems for us too.

So, to be in good health on a safe side, try to do what is right primarily and try to do what is godly according to the word of God. The word of God says some people say they are not Christians they are Muslims, Hindu they are one thing or the other.

If there is anything good, that is proper, that is fair for a human being, do it. So that it will help your health. It will balance your health to put your mind at peace. First, there is a foundation for which you can lay upon but that is not everything.
So that is the activity.

The next item we will be looking at is the attacks. The attacks yes. People can face physical or spiritual attacks. For the physical it could be very impactful, it could be verbal and nonverbal attacks. People could even face body attacks where you just know that some gave you a dirty look.

You know it is not verbal. If you are the one, you are in the right position and sees somebody looks at you like that you will, of course, know that something is wrong. Sometimes you do not have to do anything wrong. People may just hate you and give you bad looks or they do not like what you are doing.

The fact that they do not like what you are doing does not make what you are doing wrong. So, you have to be careful in your environment and assess your environment before you know what you need to do. Certain things are right, but you may not do it in certain places.

Oh, you want to take a shower, it is proper to take a shower, will you come to the center of the bus stop and take a shower there? Or will you enter the bus and bring your bucket to take a shower because it is right to take a shower inside the bus, no.

So, or maybe some people say they are in a cell phone or sleeping or whatever in a bus or train or airplane sleeping, and somebody is talking so loud that person needs their sleep. You know at the same time the person is saying is that your bedroom?

You should have slept in your bedroom but in some or all cases, long flights, they switch off the light to allow the body to sleep. When the light is switched off for a long time, you should observe for respect for other people and reduce your noise or you too try to sleep.

Be awake when people are awake. Be asleep when others are sleeping because you do not want to cause any stress for anybody. Praise God. Those are some of the attacks. The attacks can be spiritual attacks by forces at playing in this world.

Let us not kid ourselves. Whether you believe in God or not there are forces. When people do something bad, when they do something bad, they plan it in their hearts. They look at the intent in courts with which people do bad things.
The intent, intent, where is the intent coming from to plan attacks? Some people before they plan attacks, they have been using their mind to plan evil against you. And spiritually they can come to you when they are wishing you evil.

If you are not strong enough spiritually to protect yourself against such thoughts, imagine such attacks you will be in trouble, you know. Somebody will just come maybe coming to your house or you say hello to everybody, and nobody answers you back, first and foremost you will already be disturbed by such behaviour.

Saying high guys, high guys or in a restaurant nobody comes to take your order you see other people ordering their food. You ordered your food, but it is something complicated. They do not bring your order to you or rumours of people spitting in other people's food in the restaurant and you are eating the food. Ha, not knowing is bad, knowing is even worse. Praise God.

So, for the attacks; the spiritual and physical attacks, pray against them. Protect yourself against attacks; be vigilant to know when you are being attacked so that you can protect yourself. If the attacks are long enough and you do not have strong defences, you will fall or break down.

Physical attacks, verbal attacks, nonverbal attacks on their husbands and wives in the same house. They are not talking to each other for one month is worse than actual physical fighting. When people fight like that maybe after two punches or three the tension is out people will be reconciled.

I am not advocating physical fights, but it is almost better than nonverbal attacks. It causes ulcer, it causes high blood pressure, sleeplessness, headache, fatigue, lack of productivity and reduced sexual libido. It can cause so many disorders. It is a serious demonic attack.

The interferences, just like attacks and it is almost the same thing. Interferences are that you are doing things and some people want to interrupt you, saying keep quiet, I do not want to hear your voice even in school or in the office, in business.

When you start facing such interference you cannot express yourself, you cannot be yourself. You will not feel comfortable, you will not feel comfortable, you will be disturbed. Praise God.
So that is the interference. It is particularly important. There is physical and there is spiritual, there is metaphysical, there are all kinds; we cannot go into all the details.

Those in the know, know there are interferences. You are planning, you are thinking about something or trying to sleep someone is making so much noise or somebody is shouting, or somebody is calling you or you are trying to rest, and your phone is ringing continuously or one thing or the other.

Those are interferences. Interfere with your normal process or you are trying to eat your lunch, somebody is disturbing you or distracting you or calling your attention to do something when you are on your lunch break in the office, when you come back, your meal is cold, your lunch, you are timed out and you have to time back in.

You have not eaten, you have not rested those are interferences. They can build up, you might think it is nothing or do not worry, you might think it is okay, it is fine. I have skipped my lunch or skipped my sleep or skipped my dinner, no everything in your body is designed to take, take it, it is meant there. Your body needs them for a reason.

So, do not allow interferences in your life; too much interferences even in your relationships with your children, with your spouse or with company or anything. Do not allow any other parties in, to bug you. Try and resolve the issue with the people in concern. In some extreme cases, you may bring in third party.

Know that you are bringing in third party to help but know the limits of the third parties so that they do not make things worse. Praise God. So that is it about interferences.

Then there is interception. Interceptions; where your are trying to do something, somebody intercepts, stops it, prevails against it from going to it’s destination.

We have seen cases, we have seen cases where in WhatsApp, they are intercepting me, interfering with my work, interfering with the gospel of Christ that I share, they might even be interfering with the businesses I am trying to develop. You know you send messages they block it, they shut the network down. They do this at very unusual times. very unusual and strange time. It is almost deliberate; it looks almost intentional, whether spiritual or physical.
If you say this people say you are being superstitious, or you are talking too much. But those of us now in the spirit, we know things that are proper, things that are improper; things that are normal, things that are not normal. You are sending a mail and it is intercepted on the way or you are making a phone call, the call is being intercepted by the government, they are listening, listening for what? You have not done anything wrong, they are trying to make sure you do something wrong so that they can get you.

It is like an entrapment. They are waiting because they believe you will do something wrong. You have not done anything wrong that is interception. Intercepting, intercepting your information, because you are blue, or you are black or you are red or you are purple because of that, you are stereotyped, you are profiled. Unnecessary interception.

And then there is aberrations. Aberrations is also physical and spiritual. In the physical, may be you are looking at something through a glass and the colour does not appear to be what it seems to be. You know or want to buy something, and they say, this is blue, black blue and you look at it and it looks like light green. So, you are wondering if you are right or they are right.

May be you need to call a third-party to see whether it is or what it is. And sometimes too, the media, they do a lot of aberrations, they turn and twist the news to suit the agenda they want to portray to you. So, you have to be careful what kind of sources you use for your information. Your news, even your food; they can turn it and twist it.

I am not trying to put fear amongst you, but it is the truth. If you listen to news, they are saying all kinds of trash. You listen to the other channels; they are saying a different kind of trash which trash is trash and before you know it you become trashed because you are watching all kinds of trash. Praise God. So be careful of aberrations.

Things sometimes do not appear the way they are supposed to be even in relationships too in the physical. Be sure you get the right information. Clarify before you draw your conclusion. Let people get angry, they get into fight, they destroy their lives, they destroy other people's lives because things seems as if they were this way, when in fact they were not that way.
And institutions, they sometimes deliberately twist it to make it like they are aberrations. So, look into the facts. Investigate the facts before you do or make critical decisions. It is important. Praise God, Praise God, Praise God.
THE INNER AND OUTER BATTLES FOR THE CONTROL OF THE MIND, SOUL AND SPIRIT

So, now we are going to look quickly, time is going fast. We are going to look at Chapter seven topic 7. The inner and outer battles for the control of the mind, soul, and spirit.

The inner and outer battles for the control of the mind, soul, and the spirit, is such that within yourself, there is a struggle between people say good and evil. For us, that are Christians, will say the Spirit of God, the enemy, or the devil.

There is a continuous struggle inside to get your mind, to get your spirit, to get your soul. From my understanding, I will tell you about the spirit, soul, and the mind.

So, your mind is the area within the sphere of your brain. So, it could be anywhere as far as your brain can get to. The area where your brain function is your mind.

Your spirit is the free big one, that is, it is as big as the universe. It can go anywhere, it can reach anywhere as far as depending on which spirit you allow to control you. If you allow yourself to be controlled by the Spirit of God, your spirit can dream and can go as far as the heavens, it can see God.

If you allow your spirit to be controlled by the devil, it can go as far as the hell and learn and plan and do evil stuffs. So be careful what spirit you are allowing to control you. For your soul, your soul is the core, the core of your heart, that is the core of your heart.

So, when you give the core of your heart to Christ, it is not just the physical flesh, it is the spiritual entity that is inside. So, the soul is almost the heart of the spirit, get me. That is why, we have the heart of the human. Soul is the heart of your spirit.

Mind is just space within which the brain works. It becomes like a network within the sphere or range called the mind. Oh! I have a good mind. Spirit and soul; they operate in different ways. There is a continuous battle between forces of darkness and forces of light between good and evil, between bad things and good.
things within your heart and outside your heart.

The inside takes place in the spiritual, they are outside even though it is spiritu-
al, but you see physical manifestation. You see somebody showing or they are
showing movie, good movie, some persons easily get some bad stuffs, maybe
sexual sin, other things people do not really need to watch. Some have violent
stuffs and coded stuffs in there. It is all for advertisement.

You will not even know you are considered for advertisement, you will just sit
down for two hours, three hours, four hours you just sit down there, you are not
told, you are not even asked for permission; you are not even asked. This thing
is for commercial break.

No! It is just fused in, embedded, cross marketed, cross promotion. So, know that
your soul, mind and spirit, there is continuous battle raging and you have to take
a key role, play an active role to take control of your mind, soul and spirit for you
to have a sane life, for you to have a healthy life, for you to have a good marriage
and even a good person but align yourself with the Spirit of God, align yourself
with the Spirit of Jesus so that you will be able to do what you are expected to
do. Praise God.

We have a God, who never fails

AUDIO 4

Praise God, Praise God, Praise God, thank you, Jesus, thank you, heavenly Father.
We just thank You for this opportunity to continue this our PEEP INTO THE DEEP.
We are looking into the Deep from a different perspective. We are looking into
the Deep. We know where we are drilling at.

We are just looking and going in there slowly, slowly until we give you the bam,
the bam, the big bam. So, be patient, be careful, do not worry, are you knowing
what you are solving, what you are doing? There is nothing wrong here.

We are not doing anything demonic or occultic. We are just revealing somethings
that God has said to us and we are setting it up in a proper way so that people
can understand and flow with it. They can get all the various angles and aspects related so that when we go into the main course, the main subject, it will be easy to eat.

It will be easy to absorb, it will be easy to digest. Praise God! Father, I just thank You for this opportunity again to continue on this narrative and this discussion in the PEEP INTO THE DEEP and exploration on the inner, interior, and exterior dark matter.

We are going to continue Lord today on the **Chapter on topic eight**, guide us and let us know how we can move further and proceed. Give us the utterance to say only the right things that people need to hear.

And let people’s mind be opened to receive these things without fear or bias, without going into doctrine, without going into denominations, without going into ministry, without going into religion, without going into anything. Let them just receive this as facts, as the facts are from You. We are not here to force anybody to follow Christ.

If you want to follow Christ and if you want to know more, it is good for you. If you do not want to follow Christ, it is up to you, but you must know Christ. He is the true way, the true life.

Without my relationship with Christ, I will not be endowed with this so much knowledge, so much wisdom to be able to discuss this, where all the professors, all the experts are standing by, wondering what is this guy doing?

Is he saying there is something wrong, is the authorized, yes, as a child of God? I am authorized to preach the gospel of Christ and to reveal the knowledge of God for in Jesus’s name I pray. Amen, praise God, thank You, Father.

Thank You, Jesus, You are the owner of our soul,
Alpha, Omega,
You are worthy to be praised,
In all generations,
There is no one like You,
Alpha Omega, You are worthy to be praised.
You are worthy to be praised O'Lord,
You are worthy to be praised O'Lord, Jehovah!
You are worthy to be praised O'Lord, Alpha Omega,
You are worthy to be praised O'Lord.

You are worthy Lord,
You are worthy Lord,
You are worthy Lord,
Baba, you are worthy to be praised 2ce

King of kings,
You are worthy Lord,
You are worthy Lord,
Worthy to be praised.

Hallelujah, praise God. Lord, I thank You. You are making all of us look so pretty, please do not make us sexy, so that the enemies will not come and be envying us in that wrong fashion. So that people are not committing sin because of the prettiness You have made us.

Let Your glory be upon us. Let people see You when they look at us. Let us continue to shine like You. Let people be drawn unto You because of what You are doing for us. Thank You, Lord. We love You, Jesus, for, in Jesus' name, I praise. Amen.
THE INSTIGATORS: CHEMICAL, PHYSICAL, SPIRITUAL, AND WHAT HAVE YOU?

So, **topic 8** is the instigators, chemical, physical, spiritual and what have you? The instigators are things that cause upset or in balance in the life of people both physically and spiritually. Those are what we call instigators.

There are so many factors that can cause, that can become instigators in our lives. And these relate to the activities we were talking about in **Chapter 6**. Those factors, those activities and inactivity can become instigators.

We talk of chemical instigators. Chemical instigators could just be foods. Eating the wrong kind of food. It can be a source of balance in our lives either physically or spiritually.

We can also have chemicals like drug compounds, even legal compounds, legal drugs that can cause imbalance if it is not taken properly. If it is taken to much or even when it is expired.

So be careful how you take medication. Taking medication, there is nothing wrong with it. Take it as prescribed for the length of time, do not change it until your doctor say you should change it.

Do not change your medication until your doctor says to change it. If you feel you have received deliverance, you have received healing, let the doctor confirm that you are well.

If the doctor says continue on the medication, please by all means continue. What you do not believe in is not going to kill you. So, if you believe you are healed and you are trusting God, let the medicine just be in your body as a placebo. If the side effect is too much, talk to your doctor. Your doctor will change it.

So, some chemicals that are not legal, illegal drugs, pot, marijuana. Some countries are making it legal, it does not make it a good drug. So, these things can cause imbalance in your digestive system, in your mental focus, in your mental system. In your psychiatric system, everything can change because of using the wrong chemicals.
Even chemicals in the air paints, some other things that contains alcohol, or some chemicals they can go into your body and cause a change. Physical change, biochemical change, mental change, psychological change, you know. So, it can just be because of the colour or the way everything is, you start having headaches. It happens to some people. You can just be allergic even to some colours in the environment, so be careful.

That is why some people in the wintertime because it is dull and gloomy. They fall sick, they get depressed and all those kinds of things. So, do not allow yourself to be influenced by such chemicals. Strengthen yourself with the word of God. So that you will be able to know and do the right thing at the right time. Let God guide you, let God protect you.

So, be careful of the kind of chemicals you take. Do not take any chemical or substance that is not approved for you. Do not eat any food that your body is not comfortable with and allergic to. Stay away until God heals you. If you believe God healed you, do not go and prove it in the church, prove it in the doctor's office because the ones, who are classing these things are bad or good. Let them use their mouths, use their own equipment to convince you that you are okay. Do not convince yourself by yourself and stay off your chemicals, drugs, or your food. No, it is not godly there is a wisdom, the medical profession was started through the ministry of Christ; not everybody was able to get well through healing, not everybody had faith.

Without faith, you cannot receive healing, even if Pope is your doctor, even if Pope is your Minister if you do not have faith in the word of God you cannot receive healing. In the Bible, it says by your faith you are healed. By your faith, you are set free. Your faith has set you free. Your faith has healed you. That is what Christ said. He never said Jesus' faith, your faith, but have the faith in Jesus, have the faith in God.

Do not have it on television, do not have it on the politicians and do not have it on the money in your pocket or the beautifulness of your body or your beauty or anything. Do not do that, have faith in God. The more you draw close to God, the more God draws close to you. So have faith in God so that you can get the healing.

Let the doctors confirm it. Do not take any illegal or legal substance, do not do it. I am a chemical engineer. Chemicals are dangerous, even the so-called legal once
in the improper way, they can be dangerous for you.

So, be careful about your own safety. You can lose your life. Many lives have been lost just like that; many lives have been lost. Praise God. Hallelujah!

So, for physical instigators, physical instigators, physical trauma accidents, fights, attacks, physical activities, or you hurt yourself through sports or anything. Those things can cause trauma in your body and the trauma can go straight into your head.

And that head trauma can cause anything. The brain after a traumatic encounter can get an imbalance. Other things that can also happen, is that you may be doing activities, or you are under pressure to finish work or to read so many courses or you are taking a program in a school or you are doing some kind of job and your body is not fully fit for it.

Do not force yourself, do what you can do only. You can do all things through Christ who strengthens you Philippians 4:13. I know that but do one bit at a time. Do not try to go to a restaurant, there is 25 course of meals, you take 25 meals and put it in your plates, you are trying to eat it at the same time with 25 spoons, nobody is fighting with you or rushing you, does that make sense. Nobody is going to finish the food, so take one plate at a time.

So, if you want to be an engineer, a doctor, a lawyer, a scientist, or an artist, take one course at a time, one level at a time. Do not just graduate into PhD trying to study all the books, over rush yourself, saying you are a genius.

Nobody is rushing with you like that. Who are you trying to impress? You may end up in the hospital, you may be dead. So, praise God. Hallelujah! So, the aspect of spiritual instigators, people do demonic and occultic things that can interfere with your system just like we said in Chapter 6, topic 6.

They can interfere with your system, your normal functioning. There can be spiritual attacks, or you can engage in spiritual practices or activities that you are not fully prepared for, you are not equipped for, you are not qualified to do. Be careful about taking part in some astral travel or voodoo, taking part in some kind of things. Do not do that, planning evil against other people. You do not know if he is a stronger demon than you.
The person will come for you at night, in your sleep, in your dream even in the physical. What are you going to do? You may be killed, or you may be frightened harassed mentally, physically, or spiritually and you may end up in the hospital and you will not know what happened to you or go and commit sins like adultery, fornication or stealing or rape, and so on.

They do not care, they are the children of the enemy. If you are not careful, you may end up in the hospital. It may take an awfully long time for your body to recover because of the damage. It takes a while to get fixed. Sometimes, it may not be fixed up permanently except by God. Praise God! Trust God, get close to God.

So other things that can cause you to have some imbalance in the physical, mental, or spiritual parts of your body, there are other factors, the kind of things. The kind of lifestyle you live, you are drinking too much alcohol, or you are partying too much, you are drinking too hard.

I am not saying going to a party is wrong. What kind of parties do you go to? Do you listen to demonic music? Are you going to parties with witches and wizards? Are you in the cult?

These things can affect your health. Everybody is not conditioned for that. People say marijuana is not for everybody, so be careful even ordinary cigarettes are not for everybody. Somebody can just smoke 2,3 cigarettes, their brain can get fried. Somebody can smoke 6 packs in the same period, and they will be okay.

So, there is different resistance to what you can do. It depends on how demonized or spiritual you are. Praise God! So, do not test yourself. Do not try to find out. You may be crossing lines and you will not be able to come back. You may be permanently damaged and useless. You may start wondering why you have seen some certain people on the street homeless, it is not their fault.

They went too far, one way or the other. The situation causes them to be like that and they now become sick. Once you are in deep stress, trouble, you become a sick man. You are stressed up and you need help. Go for help. Go to the hospital, get some help, get cooled down.

Get your mind settled and ask God to heal you permanently to give you the courage to overcome the previous mistakes to overcome previous situations and to withstand other future attacks. Praise God!
MANAGEMENT AND APPROACHES THAT WILL WORK AND ENDURE IN THE CARE OF THE INSTIGATED AND THEIR CHALLENGES

So now we look at the number 9 Management and approaches that will work and endure in the care of the instigated and challenges. In case of challenges, different ways work. I wrote some big materials some time ago.

I have to try and find them, I will reserve a lot of the comments of this number 9 now with the hope of doing it when we put other materials together. So, we will be adding more to the materials, so that we will not be duplicating information. So, everybody has to know how to handle those who are under stress, psychological stress, physical stress, body stress any kind of stress.

HOW TO MANAGE IT
The main thing there is to cool the person down. Cool them down, cool the person down, so that their body will become settled and then you find ways to counsel them, on how to come out from this situation, not just medications.

You counsel them out of the situation by bringing counsellors that are related to their background, that is related to their situation, that they can relate with, that they can trust. Do not bring somebody from the moon to talk about the sun.

They will not know the situation and they will not appreciate it. Find somebody that matches the background and the challenges. People, a role model who has experienced this situation who have succeeded in going through and overcoming or successfully managing the situation.

That is the best way, cooling down, finding the causative effects, is it chemical, is it physical, is it spiritual. Find the causative effect. Without the root cause analysis, you will not be able to get a good lasting solution.

The root cause analysis after cooling down, general cooling down, anything that can cool them down, medication, food, sleep, injections; cool them down then find the cause-effect.

The real cause-effect even if it is bad or not bad. Do not hold it against some of them, of course, if it is criminal that of course there are regulations, guides, and
laws regarding things like that.

Most of these things are caused by the heart, not from the brain. I have seen that in modern because so much focus is made on the head.

The real situation is occurring in the heart. It is the heart that feeds the information that causes the blood to flow. People get heartbreaks. If the business goes down, their hearts break. It all starts from the heart.

It starts from the heart, not the brain. The brain is just the transmission station, transmitting the information. We will give you more on heart, soul, and mind. So, we will be talking more on that in topics 10, 11, 12, and 13.

We got that and see how much further that we can go. Praise God! We will just round this up now. Thank You, Jesus, for finishing another 2 sections. We thank You for everything You have done. We thank You for the way You have been increasing us. We thank You for the way You have been blessing us. We thank You for the way you have been endowing us.

If any of you have knowledge that is missing or knowledge you want to add to what we are saying, or you want to gain more knowledge, you want to go into the deeper personal and private questions, you have such situations, or you have family members who have such situation or you are a practitioner.

You want to know more about difficult and challenging situations, come and meet us, we will prayerfully with the power of God guide you, we will show ways that are not violent, that will help find a solution. The main thing is to help find a solution.

Praise God! Praise God! So that ends topic 9. Thank You, Lord, for everything. We give You praise, we give You honour, we give You all adoration. Praise God, thank You, Father.
AUDIO RECORDING 5

Thank You Jesus
You are the owner of my soul
Alpha and Omega
You are worthy to be praised

In all generations
There is no one like You
Alpha Omega
You are worthy to be praised

You are worthy to be praised
You are worthy to be praised
Jehovah,
You are worthy to be praised, Amen
Mighty God, you are worthy to be praised. Amen

You are worthy Lord
You are worthy Lord
You are worthy Lord
Worthy to be praised 2ce

You are worthy Lord
You are worthy Baba
You are worthy Father
You are worthy to be praised

Thank You, Father.
THE WAY FORWARD TO INCREASE AND MAINTAIN SANITY OF EVERYBODY TO AN ACCEPTABLE AND HUMANE LEVEL

So, this is A PEEP INTO THE DEEP, an exploration of inner, interior, and exterior dark matters. So, right now, we are going to be starting topic 10 or Chapter number 10. We are going to look at the way forward to increase and maintain the sanitation, sanitization of everybody to an acceptable and humane level.

So, this is going to be high opinionated, based on my Christian faith background. Some people may accept it, some people may not accept it, but I know, I am speaking to you in truth and spirit based on how I have been inspired by Jesus Christ my Agape Lover, my Saviour and my personal Saviour and Leader.

The important thing we need to know here is that whether you agree with my faith or you do not agree with my faith, it does not matter to me. I will prefer you agree because I know what I know is from the God that I serve but if you do not accept the fact that something good should be good and something bad should be bad.

So, on that premise, whatever faith you have, whatever belief you have, whatever notion you have just pay attention to what I am going to say in this topic 10, so that you will be able to learn one or two things. Take one or two things from it and run with it. It will make this world, a better world.

I am the Peace Maker, God made me a Peace Maker because He knows my heart is pure and sincere. I cannot do anything inappropriate, even when people do something wrong, I struggle, struggle to take actions. Sometimes, actions are taken out of love to encourage them to know that what they have done is wrong.

To encourage them to do the right thing. To save their soul from going to hell, that is what we believe in by faith. If you do not do the right thing, you are a sinner and when you pass on, you are going to hell and there it is going to be forever.

And whether you are there or here, whether you are a good person, you have a peaceful life, you have a joyous life, you do not worry too much about what other people worry about.
By not worrying, things really stop worrying you, even those that are worrying you, it is obvious that this people are evil, they are wicked people. If you cry out eventually, people will know that you are among the good guys, you are not one of the bad guys. You are not one of the ugly guys just like in the movies.

Thank You God. Lord we just thank you for what we are hearing today, guide this word, let it go far into the heart of people. Let it remain there. Let it find a good place to stay. Let it become part and parcel of their lives, for in Jesus name we pray.

So, in this life today, some people say in the medical field that 99 percent of people in the world, they have all kinds of stress disorder or mental disorder or one psychiatric disorder or the other.

The percentage varies, It is just an approximation; when people get to their trigger point, that is what matters, sometimes nobody knows. That trigger point is truly short or narrow, some is exceedingly long or wide. So, you do not know and the fact that you do not know, do not take any risk.

So, how we move forward to increase the number of people that are well, that are not going to get into it. How do we increase people that have been sick, that have been wanting to recover? How do we increase the number of people that have recovered and make sure that they remain recovered from mental health issues?

One of the ways, that God has revealed to me is that we must make this world a better place. According to Michael Jackson, he said, we are the world, we are the people, we are the children, this is our world, let us make it a better place. Let us encourage everybody to be good.

Let us ensure those who are not good to be good. Let us encourage people to love one another. Let us encourage parents to love their children, spouses to love each other. Let us encourage ways that people can resolve issues. Let the government play a big or good role in helping the society to be good.

The politicians, the celebrities, the stars, they are getting away with too much, they are doing all kinds of strange things and the society because of the economic values of those celebrities, they are allowing them to take sanity of the world and society for granted because some of those things they do, the wrong people
are going crazy. Those things they do, the good people, they copy them, and they become bad or become evil.

They do crazy stuff or things and they become crazy. And these celebrities, they do these things for so long because the society allows them; many of them end up committing suicides, they end up divorcing, end up killing themselves, they end up becoming drug addicts.

They end up becoming a pain to the society or lose their profession and become a burden on the society. So, who is gaining? Nobody is gaining apart from the devil, apart from the enemy or their agents. They are making money off these things.

So, we must know that at the end of the day, the leaders must be accountable for the actions of what is going on in their society. They are led and pulled from the society to represent them. If anything is going wrong in the society, as representatives, it is their ultimate responsibility to ensure that all those issues are resolved.

Not going to their political parliaments or houses of assemblies and going about and they are shouting and debating and making policies that involve them benefiting for themselves, forgetting that they did not go there by themselves. They were chosen there by the people; they are there by the people and they are supposed to do the binding of the people.

So, I encourage civil society to be on the lookout. Do not just send the politicians there and forget yourselves and say in the next election we are going to vote him out. Be active, be conscious, do not be violent. No violence is advocated. Be active, look at what is happening. Do not get too partisan and do what is right.

Do what is reasonable, not because you are a Christian, because you are a Pagan or Muslim, or you are going to say, oh because, you are a Christian if a motorcar knocks down a Muslim girl on the road. It is okay because they are not of God, they are going to hell, no! God did not send you that. We are all children of God. We are all made by God.

We are all brought to this world by God and we are recruited and brought and saved by Jesus Christ, to do and spread the gospel of love. Love does not know religion. Love does not know any race, love does not know ethnicity, love does
not know the Country, it does not know tribe, it does not know the color, love does not know the status.

Love is for all. Let us spread love. So, the main thing to do is to spread love, real love. Not fornicating or adultery love, just Agape love. Love one another, brotherly and sisterly love, then relationship love. Let us encourage those who are in love to get married.

Let them not be having sex and doing all kinds of things; having an abortion because they are not yet married. Let us encourage anybody young or old, encourage them. Let the government provide money for them to get married. Let the government have a tax. If you are married, husband and wife, let there be a further exemption tax credit.

If you remain married further tax credit, if you have children tax credit because we say, we want to grow the population. We want good families; we want good things. If you are not paying for a bill, you are not paying for good service, why should you expect them to get good service from the government?

So, the leaders, in summary, should be put on the burner to make sure they are fully responsible, fully accountable for whatever goes on in the society according to social responsibility (ISO 2600 guidance on Social Responsibility). They must know that they are ultimately responsible. They say, oh that neighborhood is bad, this and that, what are you doing to make it good.

Do not just send Police there and start shooting like they are doing in Toronto and some cities in Chicago these days. No, find good ways to address issues, send good people into society to know what exactly their real problem is.

Is it food? Is it job? is it racism? is it poverty? is it drugs? is it anything? Who are bringing the drugs? Drugs cannot just drop from the sky. People are bringing it through the Ship, people are bringing it through the ocean, they are bringing it through the Ports.

Who are they? and where are they passing through? Who are these corrupt officers, bring them out and execute them. I am not in favour of the death penalty but there are some criminals like drug crimes, rapes if it is proven.
Ah! No, no, no. It is unacceptable because if you do not do anything, somebody will say “Ah! It is just 2 months’ probation, 3 months’ probation. I just talk to my daddy, I talk to free masons’ group, I will talk to one secret society or the other”. They will just let them go on conditional release or bail. No, it is wrong! it is wrong!

So, know that what is wrong is wrong and let us continue to pray and spread the message of love and let us put these monkeys on the back of the leaders, political leaders, military leaders. Let us put the monkeys on them, let us tell them if these issues are not addressed, it means they have failed.

Let us give them zero percent or 100 so that they know if they fail, they will not go back to love being there. They love all the power, all these benefits, the money they share, the political powers and the class, everything you know.

Let it be known that if you do not go there... Let put a recall system so that, they will not wait for 4 years so that after 1 year if the guy is misbehaving recall him, recall him and get somebody to finish his term. Who is the guy? He does not own the money; he does not own the country.

Whether they are in secret cult or anything, pray them out of office. Christians should pray, pray continuously, every day. Do not just wait for things to change, the government will change things, pray the government into change. Pray for the change into effect, pray for the change into manifestations.

Let it be known that you are praying. Praise God! Praise God! Hallelujah! So now, that is the end of topic 10/ Chapter 10. We shall look at materials from earlier discussions. If it can be found. We have one. I know we have some. I will not say where it is. I have one somewhere that I can pull out.

I have to review them and amend them, but we cannot put them into this audio, it will be like reading written materials into audio. And writing it back into transcript, No! You will see that in Chapter 11. The other materials I mentioned earlier on and in topic 9, I will say 12, those ones will go into the materials when they can be found. They will go into 11.

If they cannot be found, I will use the power of God to remember what I can remember and put it there. There is nothing like putting the fresh raw materials as they were downloaded using Habakkuk 2:2. So, that will be part of topic 11.
So, there is no long audio for topic 11. I will leave it there, okay. Thank you. Praise God!
MATERIALS FROM EARLIER INCURSIONS

Below is the relevant portion of the much talked about materials from March 2013. The complete set of these materials are featured in the book Layman’s Series; Volume Two written by Ademola Usuanlele.

QUALITY ASSURANCE 101:

At the interface between service providers or their products and services with their end-users, consumer or customers or clients at that interface, these conditions must be attained for 100% satisfaction which is based on:

\[ E \leq \text{Agape love or unconditional love} \]

Effect for consumer (kids or adults) should be wow!! or cool!! or sweet (like honey)!!

Service Provider: Be nice, if you cannot be nice do not be bad.

This can be achieved easily if the people and process and systems have attained Agape love level which is optimum performance based on the resources available at that time.

These can be applied to all industries or sectors where there is interfacing between service providers and service users.

PSYCHIATRY AND PEDIATRICS (MEDICINE)

To be successful in these two areas of medicine, it is particularly important that both sets of patients are regarded as toddlers which require extreme care and tender loving support just as their mum would provide or would have provided to them.

Affirmation and physical role model or Jesus Christ as a model can be introduced to help the healing process by first stopping the emotional, psychological, and spiritual bleeding.
It is important that these physical role models are spirit-filled married couples with known evidence of Agape Love in their life. Alternatively, it can be a well-grounded Christian Pastor and/or his or her spouse are of whom needs Agape Love to perform their role successfully.

Pediatrics (1 General Medicine) + other specialization. The New QA 101 applies to Pediatric Medicine, other medical fields at the point of interface because this is where service quality is totally based on all the efforts made by both parties to ensure that there is no unnecessary friction or spark during contact.

The kid (or adult) patients must be treated respectfully and lovingly like 2 years old or younger to ensure they get the attention they need and the AGAPE LOVE which heals faster than drugs, therapy, and other intervention needed. All the above media should be combined in varying forms depending on the state of the provider and end-user. The goal is to get to the point where only AGAPE LOVE is required.

To get the best out of the kids (or adults), the service providers no matter what one must remember that success depends heavily on the sentiments and goodwill of the end-users (kids and adults). Which makes it extremely important for the new QA 101 to be the main goal/objective of everyone’s service quality standard.

Empower the patient and their families to ask politely, questions they want answered and changes they want to recommend provided all these questions and changes are reviewed for implementation or/and disposition.

It is easier for a child to enter the kingdom of God than to be threaded through the hole of a needle. It is important for the staff & doctors to politely bring themselves below the level of the kids so that out of the little bosses given to them, they will be open to chat about their medical needs or concerns.

This principle above apply to all medical process systems but with a slight twist for Psychiatry (stay tuned) the key thing here is to be genuinely in love with your profession and to show the right amount of love; as you will show if you are their parents will their kids. They will progress you towards AGAPE LOVE if you are filled with the Holy Ghost.
PSYCHIATRY (KIDS & ADULTS)

In Psychiatry (for kid & adults). The new simple QA 101 applies just like in every area of life. Patients and families should be managed at all cost and in a family-centred care environment.

Just as in kids and families are also handled in a Pediatric environment. The difference is the way root causes of mental health conditions are treated should be dependent on the result of a rapid Root Cause Analysis and corresponding Corrective and Preventive Action Plans developed to each patient & family.

Hence, there should be no one size fits all in any case because treatments should be as much as possible tailored to suit individual patient and family needs for each specific episode because there can be new therapies or resistance to existing therapies. Also, old treatments for other conditions that are less-expensive may become the magic pills that can cost-effectively take us forward until a permanent cure or treatment/management plan.

Before moving forward with the classification of some of the Root Causes to identify, analyze and then develop treatment (corrective and preventive) action plans, we need to emphasize the importance of the patient and family health management plan which is the management process with non-medical intervention such as psycho-therapy, socio-therapy, occupational therapy and the use of new QA 101 with the added support of Agape Love (E ≤ Agape Love) from a holistic approach from staff (and physicians), friends, families and government at all levels.

Metal health patients and their families are already at the lowest point (see Confucius) and we should not make them feel any pressure to go any lower because there is nowhere else to go other than to fight back which will leave a very bitter taste in everyone’s mouth. Nobody wants that! Or do you?

ROOT CAUSES OF MENTAL HEALTH CONCERNS

The principal root causes of mental health concern in kids and adults are as follows:

1. Hot heads (stress management) only. Addition of other stress factors can result in
2. Pot-heads
3. Cigarette/Cigar heads
4. Drug (illegal-Drugs of all kinds) head
5. Blood-head I (patient own blood spilled by self or 3rd party resulting PTSD)
6. Blood-Head II (Patient spilling a 3rd party blood or witnessing a 3rd party blood being spilled PTSD)
7. Blood-head III (patient murdering or party of a murdering party of a human being with or without cause causes PTSD because a human blood has been spilled)
8. Blood-head IV patient that has eaten or witnessed the eating of human flesh or parts thereof for dietary or ritual purposes PTSD

**HOT-HEADS (NATURAL GENIUSES)**

Usually suffer from internal or external stress disorders which require rapid stress management effort exactly like QA 101 simple plan P & FCC used in Pediatric medicine.

*There are two clearly distinct types of hot-heads and they are:*
1. **Passive and Introverted Hot-heads**
2. **Active and Extroverted Hot-heads**

Please do not be deceived by the Active or Passive distinctions of Hot-heads because with or without notice the temper tantrum nature can change whereby the Passive and introverted Hot-heads can become active and extroverted especially amongst friends and family or during deep grief or emotional trauma or pain.

To maintain a healthy life and reduce unnecessary stress, Hot-heads are to maintain a relatively healthy lifestyle by eating balanced diet, rich in protein from fish, chicken, beef and pork but they should ensure it is low fat, low sodium. Marrying early to avoid premarital sex stage is an important part of the balance. Light exercise and socializing are important.

Hot-heads should completely avoid Pot, Cigar, Cigarette, illegal drugs, and the involvement in blood spilling directly, indirectly or witnessing such acts to human being.

Most Hot-heads when developed properly and nurtured with guidance, turn up to be geniuses if their area of talent are discovered quickly and early enough.
TREATMENT FOR HOT-HEADS
Most Hot-Heads require induced sleep therapy of 24 – 72 hours to allow the body to slowly absorb the excess adrenaline it contains reducing the physical stress and the brains also needs time to balance out the excess dopamine to bring it back to the normal steady state for effective functioning. Great meals will need to be provided to the patient and with tender loving care from immediate friends and family to ensure speedy recovery.

POT-DRUG (ALL INCLUSIVE) HEADS (2-4).
This is a unique area of psychiatry whereby Root Cause Analysis needs to be done to determine the exact nature of the drug substance(s) that triggered the mental health concerns to narrow down the treatment plan for the individuals.

The next step is to find out if the drug recipient Head is hot, warm or blood-head. This second part will further determine what combo of therapy will suit the patient. The model can be simulated based on data gathered from the patient and family and the prevailing socio-political or economic-environmental factors blended with the old and current drugs and social and psychological therapies available.

Effort should be made to ensure that patients avoid or reduce to a minimum factors or situations that will bring them into contact with additive substances.

The repentance of sin and rededication of the patient's life to the unbelievable Agape Love of our Saviour and Lord Jesus Christ which further proves that
\[ E \leq \text{Agape Love} \]
Negative energy  Love of Jesus Christ
from addition

HOT-HEAD VS WARM-HEADS VS BLOOD-HEADS
Hot-Heads absolutely needs no further stimulant or drugs to achieve peak physical and/or mental performance in their chosen field of practice or in their social and family lives. Instead medication is required to balance the Adrenaline in the body and dopamine from the brain to prevent over-drive or over-heating of the concerned body area. Somehow, most hot heads die young or early from various conspiracy reasons.
Warm-Heads are also kindhearted but require some sort of stimulant to perform at optimum level as Hot-Heads. The only problem is that most stimulants are addictive and prolonged and persistent use of these stimulants can lead to gradually increasing dependence and the quantity considered which can lead to an addiction or breakdown of the warm-head. If he/she is not able to effectively manage the use of the stimulant or continue to push his/her limit which will result in rehab or detox resulting from breakdown for the warm-head.

Blood-Heads (PTSD) are also kind-hearted at the beginning with great intentions and purposes but became traumatized (PTSD) due to violent blood spill by them or on them including families, friends or “neighbours”. This is an issue, if this underlying PTSD is not vigorously addressed without the patient’s knowing of this therapy but the family should know in confidence the treatment plan for cause of amendment.

The Doctors can take it up from here bearing in mind these gentle souls require AGAPE LOVE to heal up quickly just do New QA is mandatory in the delivery of care from care-giver to care-receiver.

Blood-Heads (Non-PTSD) – Blood Suckers!!!
These are patients who have lost their Sanity because of occultic blood-letting and sucking and the continuous threat for blood drinking and carelessly spilling blood of others due to non-repentance from the original blood-letting and blood-sucking.

Intervention will be including cooling down with medicine of patient’s brain then Root Cause Analysis (RCA) as deep as possible to intervene in the mental health issue – Psychological and spiritual counselling must play a very big role in the treatment/therapy of all cases.

Counselling is important for:
Patients and families for all the situations identified above and especially in the Blood-head, Pot-heads.

At the end of the day new simple QA 101 applies to the conditions and it further proves that
\[ E \leq Agape \ Love \]
Energy
Blood-Letting (Non – PTSD)

This is like #7 above except it specifically deals with blood-letting related to occultic and fraternity purposes.

This blood-letting initiate participant into deep dark occultic covenant which gives them the false impression that they can spill blood of others without repercussion which always turns out to be untrue for many of them who become key actors in violent clashes with others in the rival occultic world leading to violent death on all cases.

Therapy and counselling used in #7 above should be applied to #8 too.

Remember,
New QA 101 applies in this case &

\[ E = \leq \text{Agape Love (unconditional love of God)}. \]

Hematology (Blood Disorders)

1. Sickle Cell Anemia
2. HIV
3. Cancer

Sickle Cell Anemia:

Please discard theories proposed in the old times in poems like “Abiku” or “Ogbanje” in literature poetry classics written by Nigerian Poets.

Most blood disorders are caused purely by genotypes, blood transfusion and pre-marital sex especially when the parties have close blood ties resulting in cases described as incest because it was not authorized Biblically or by native customs of the parties.

HIV, Cancer and Hepatitis and Sickle Cell Anemia mostly resulted from or was spread by transfusion of improperly processed and tested blood products. I do not believe there is a marker in blood products that identify possible cancerous cells in the blood before they are transfused.

Other factors include environmental factor and factors resulting from fornication and adultery with constitute a sin biblically and morally exposes individuals to various blood borne conditions.
CONCLUSION

Peace of the Lord, peace of the Lord. We thank You for the conclusion of A PEEP INTO THE DEEP. This is A PEEP INTO THE DEEP, an exploration of inner, interior, and exterior dark matter. So, this dark matter, we have been referring to, is talking about things that are seen and things that are not seen.

It is also focusing a little bit on mental health or psychological health, medical conditions that you do not see any physical injury except of course, people hurt themselves or people are hurt because of the condition, you don’t see anything and there has been a lot of confusion and worry about what exactly is going on within the dark heart, within the dark mind, inside the head. Oh, you can see some signals, maybe when you do some tests, it does not give you the fact. What is the causative effect? What is making people to lose their focus?

For people to lose their senses, lose their wisdom, lose their lives even. What is making people take too many drugs? What is making people not to take their drugs? What is making people to eat, making some not to eat? What is making some people sleep and what is making some people not to be able to sleep, even with so many medications?

What is making some to be violent and some not to even be violent at all? So, it is an interesting and delicate issue and certain people do not want to talk about it. Certain individuals do not want to talk about it. Certain families do not want to talk about it.

The professionals do not want to talk about it because of the stigmatization in the society. Those things that are stigmatization, it is being kind of addressed but it is not been helped. Anybody does something wrong on TV, they say oh is mental health.

Anybody does something improper to their family or their wife, they say mental health, forgetting that mental health is almost like a headache. Anybody can get a headache, that does not make a headache a demon. It does not make a headache improper.
It is just a state of mind people can develop when they get stressed. When they are uncomfortable. When they are challenged. When they are threatened or when they just fall apart because they cannot hold the pressure. So, there are a lot of issues that occur there that people must look at.

Some of them are caused by a chemical in balance. Some of them are caused by drug addiction. Some of them are caused by physical exertion, unnecessary physical exertion. Some of them are caused by psychological or sociological pressures, some of them are caused by spiritual attacks. We must accept that, spiritual attacks.

So, most of them exhibit almost the same symptoms. The main thing is to be able to know which is which so that we will be able to know how to approach the cure.

And then this book is supposed to open some discussions so that people can start looking a little bit differently into some of these situations. We see all kinds of examples of Nobel Prize holders, all kinds of talented and great people that have gone through that state. It is not something that is contagious, it is not something that is contaminating. Some people say it is even hereditary.

I do not think it is necessarily true because we have seen some people, there is no trace or sign of such in their family. And then they get it. Where did they get it from? from the sky, from the oxygen or the water?

Oh! it can happen to anybody. If you put too much pressure on anything, too much pressure; environmental, chemical; all kinds of pressure, the thing will eventually collapse. Even a rock. You see rocks being crushed. You put so much pressure on the rock, it will crack.

So, nobody is exempted. People should know it can happen to them. So, because it can happen to them, they should not be in a situation where they are making fun and mocking others because when you are making fun or mockery of others’ situations, it is an extremely dangerous trend spiritually.

You can invite it upon yourself. You can invite worse kinds of situations upon yourself. It is a general belief both psychological and all of this. You make fun of people, proud and arrogant, you start feeling you are better than them before you know it, your foundation you are standing on may collapse because you will not have time to check it.
You are looking up; you are raising your head. Raising your head high without looking at your foundation. Be careful how you mock people. Be careful about how you blacklist people. Be careful about how the media treat people.

The media needs to be restrained on how they report these things. They are stirring up sentiment, they are staring up hatred. They are stirring up stereotypes. They are destroying good and useful lives, whereas some of the lots of technology and everything they enjoy today, have been made by people who have been challenged one way or another even people who do great things, who do serious advancement in life and society.

Most of them are not considered as regular people. They are not even considered as sane. Some things you must do out of the box. Sometimes, you must be insane for you to do that. That is insane, yes! that is insane. Yes, it is insane for you to do that is the truth.

So, whether you are enjoying things of those who are insane and sometimes you are using the second half of your mouth or your full mouth, you are bringing them down or with your full mouth and insulting them, and you being a fool or foolish person and you never achieved anything.

Maybe you are just working in MacDonald or you are just a secretary or something or a low life. You are making fun of others. You have been employed in a company; you are using technology made by the insane people, prisoners of war. They are slaves of labour, and you are making your mouth. You should be ashamed of yourself.

Somebody should call you to order. Somebody should check your brain if you are thinking like that in your inhumane thinking putting other human beings down. You could be down tomorrow. You could be down with cancer, diabetes, with anything.

What are you going to do? Do you ask people to feel sorry for you? Ask people to contribute? Maybe these organizations you are mocking, funded by these people are the ones to bring the equipment to take care of you. To bring the money to take care of you.

So, what are we saying here? So, who is the crazy person? Who is the insane person. So, we must address this kind of thing. As a conclusion, we must know how
to approach different medical conditions. We must know sometimes, if these people are down state or whatever they are saying, whatever they may be doing, may not completely be wrong. Most of the time they may be right.

They are seeing things you are not seeing, that does not make them wrong or they are talking high, talking big. Investigate sometimes, maybe the things may be true. They may be hyper-inflated, hyperbole or metaphoric, similar or whatever.

They are true most of the time. Most people can only speak from what they have inside of them, what they have been thinking, what they have learnt, what they know. So, do not discount them, do not put them down.

Give them materials to put down their thoughts. Find ways to cool their thoughts, so that you can control their thoughts. The main thing is to look at the heart. Look at the brain. How developed is the brain? how developed is the heart?

The heart is usually the problem. It starts from the heart. The ideas and wisdom flow straight through the brain. If the brain is not able to cope, then there is a problem. If they take substances, it creates unnecessary activities.

You might think, oh! it is in the brain. No! it creates activities in the heart and the heart sends a lot of information to the brain and the brain goes out of directions. The brain is not able to do anything without the heart supplying food, water, oxygen.

If the heart is suppling a lot of food, a lot of carbohydrates, a lot of these things to the brain, the brain is going to do a lot of activities or if there is a shortage of nutrients or carbohydrates to the brain, what will the brain do? The brain will be starved.

If the brain is starved for too long, something can go wrong. There is a time that the brain needs to rest, we must know that. Some people are superhuman. They can do more than the rest. Everybody is not like that.

Nobody should take drugs, take coffee, take a red bull or other things try to get it right. They should know their limits because they are not good at soccer, that does not mean they are not good at basketball.
It does not mean they are not good at football. They may be the best scientist, the best scholar. People, everybody knows what your skills are, concentrate on it, forget about what others are doing.

Thank God in the Western World, anything you do very well all things been equal, you will be successful. So why are you worried about what other people are doing.
Concentrate on yourself. Free yourself, free your mind, do not think too much. Try to find a way to rest.

Find a way to socialize. Find things to do. for those who are in the Lord. Christians go to Church often, so that you can be cooling your mind. You are not doing anything other than just Praising God and leaving everything in God's hand.

The good thing about Christian faith in mental health is that when you are with God, you are made to understand that you can leave all your problems with Him. If you understand that notion and that concept, you can truly leave everything with Him.

And when you leave everything in His care, He takes the load off your heart. He takes the load off your brain. It is the magic pill, serving God.
The medical science society, the foundations and others need to work.

Part of what I believe Professor (Dr.) Pierre Flor-Henry should do before retirement or before leaving, is to set some of the processes in place for somebody like me, who knows a lot about different medical sciences. I have been involved in the children healthcare sector, adult sector, and different things, to help guide and set a new standards, a new protocols on how they can collaborate.

Not just sending a Priest to come and pray with them but know how they can collaborate to help these people lift all these people’s burdens. Medications are not going to lift it out; drugs cannot lift it out. It is not going to lift it out. How to lift all these burdens. There are even some that take drugs to get high. What is exactly their problem? What are they trying to run away from? Which war are they facing that they are trying to leave to go in superficial world?

We must know that and find protocols on how to make a bridge so that people who know you can come and talk to me and let us find good Ministers of God, genuine Ministers. Anyone that goes out of their required practice, should be
clamped down on.

Not the nonsense the Catholic Church is doing. They are molesting and raping children. Nobody is saying anything because people feel you are not pure enough to confront them. Confront them, that is the law. Use the law to confront them.

The law is blind, blind the eyes of the judges. Oh! this is the Pope, we do not know candidate A, trial him. Put candidate A to prison, nobody should know the name of the candidate. Close the case, make it a banned publication.

Put them jail so that others will know that it is wrong. If they want to serve the living God, let them serve in truth and spirit, in truth and spirit. If they do not want to serve let them resign, find regular jobs, regular jobs.

It is not compulsory to be a Priest. If you want to be a Priest, be a Priest, not a fake Priest, not a dubious Priest, not a fraudulent Priest. This same thing with the medical doctors. They should not try to show that they know too much.

Most of the time, the patient knows more than the doctors. It is what the patient tells the doctor, the doctor is going to use to prescribe. Build a good relationship with the patient.

Let the patient trust you so much. They can tell you all the facts, when they tell you all the facts, by the time you apply the solution, you will be victorious. You will be successful quickly.

You will be like a genius. Build a good relationship, support them. Sometimes, some of them have no money, they have no food, no job. Find funding. If you do not have money, raise funds.

Do some Charity in your hospital to raise funds for these people so that they can know/get what they need to get, so that they can be able to live through life in a certain way. Some of them lose their credit, they lose their houses, spouses, their children, everything because of mental health and they have no choice than to stay on the street. It is not allowed, not in the Western World, not in developing countries.

We must do something. Do something quick because it is worsening the situation. More people will fall through the crack and when they fall through the
crack, so much that it is almost impossible to bring them up through the cracks out.

We must do that as part of our social responsibility. As leaders, we do not say we are professors of this, Ph.D. that, we are experts in this, an expert in what? Expert in theory.

Do practical health care, not chemicals, not drugs, health care. Let us show that we care beyond above and beyond measure. All the doctors may not have pow- ers.
Set up a foundation, there are a lot of people who are in town, who want to give money. Let them give and make sure it is safely used or connect foundations with the people. Let the foundations give to them.

If the doctors in the hospital want to manage, let the foundations give directly to the people. Let them connect them, not social services, not social welfare. Connect them with real help that will not cost stigmatization, that will not make them look dead, wasted, or useless. Even sometimes the social welfare system, that needs to be reformed. it is there for people to use.

People do not need to be embarrassed, insulted or abuse when they come to take what is their right to use. They should not be made to seem like a failure, like a bum or like a burden on the society, no! that is what the system is because anybody can fall through. Those workers, Some of them take stress leave every two, three months and come back because they have their jobs waiting for them. Some of these mental health patients do not have anything waiting for them.

No wife, no children, no husband, no job, no money, no credit, no anything. They come back and they are on the street. And when they are on the street, what do they see? They see other people taking drugs, they start taking drugs, they complicate their situation.

Professor Pierre Flor-Henry, I thank you for all your years of service to mankind. All services to the field of medical sciences, all your great and talented services to mental health, psychiatry, and psychology. I thank you for the people you have trained over the years. It is a huge investment. I see you as the richest Canadian because you have built such a foundation, such a legacy that people will continue to draw on by God's grace. If God blesses me, I will put up a scholarship in your name. If I have funds. So that your name will remain in the annals of men and
women who made a difference. I do not know if you are in secret society or Free masons, wherever you are, it does not matter. For enduring and staying this long, this age. It is a great thing.

For being a friend. for helping me one way or the other, I thank you, For helping so many other people that I know, I thank you. Thank you for being there for everybody. I thank you for enduring, for being patient even though we do not agree. A lot of times, I refuse to agree with you. I feel I know some practices which are put in these things that can be used to advance and those areas have been missing from what I see that is existing in the current system, in the current practice, in Canada, maybe around the World because you are one of the top experts. Being of the top experts, you would know the best practices. So, these are some of my deficiencies.

I hope you look at them with a fair mind, with an open mind. Sometimes you get very stubborn but sometimes when you think you know too much, people get stubborn.

So, this is my opinion. Whether you take it or not, the opinion will come to play with time. So, it will be good you embrace it now and be part of it. You pass it on to the next generations that you are leaving behind, saying this is the way to go, this is what we should have done, talk to Ademola Usuanlele, The Peace Maker, he will guide you, he will protect you.

I worked in the Stollery Children’s Hospital for three years. I distinguished myself in process improvement beyond their imagination for free. I am not doing this for money but the books, if it sells And I make some money, the money will go to Charity. I may even put a portion of it to go to and I make some money your Charity in your name.

So that you know it is not necessary for the money just for the records, for the privileges, for the bragging rights in the name of God not in my name. Thank you, sir, may God guide you and protect you.

I pray to God to give you further 10 - 20 years so that you can see some of these things come to play. You can sit down at home and watch the news. Maybe we go for coffee, go for dinner, we go to parties together.

We go to conferences and present these things and see what the world says.
These are new and novel ideas, different from what I have seen.

Praise God, Praise God.
We have a God who never fails.

**FAREWELL TO NOTE PROFESSOR (DR) PIERRE FLOR-HENRY**

So, this is a farewell and conclusion note for the professor of professors. Doctor Pierre Flor-Henry, an exceptionally talented and highly skilled and dedicated professor of medicine. Professor of professors, father of doctors, biological father of doctors, spiritual father of doctors, of professors, we thank you for everything and you will live long. Thank you, God bless you. God keep you. God honor you. You will live the rest of your life good. May Your investments will be successful.

May your children live and carry on the family name. May they do better than you have done, especially your daughter who is a doctor. So, may they do better. May they look at where you stopped and continue from there instead of just copying what you have done.

Look at where you stopped, continue. May they be connected to me in the spirit and physical. I can guide them into new channels of improvement in all areas of medicines, all areas of human endeavors in Jesus's name I pray. Amen
SUPPLEMENTARY MATERIALS FOR A PEEP INTO THE DEEP

Mental health is a contention for hope. We all must by faith, join and support patients in every way possible, to take on this battle by themselves with the Holy Spirit guiding all of us.

Let us all support them. No shouting, no threats, just pure petting, and encouragement using Agape love. We should work towards getting them married before too long, to give them a permanent support and companionship. By offering community support, even if they have to live with you (parents/close family) until they can afford their own flat or house.

Most distractions young people face are tied to lust/sex and money. Sex and lust do not necessarily need money to occur. But money when God is not involved, can cause more distractions that lead to lust/sex. Just know that they would be alright. Our support towards them would quicken the permanent victory and go a long way to prevent potential relapses.

Let them know that they are indeed a special breed of humans who are gifted and have a natural hothead. They DO NOT need any form of stimulant to be creative or to excel in anything they are doing in life. Those stimulants are like adding fuel to fire or adding more heat to an already boiling water.

Olanzapine (Zyprexa) is one of a very great number of products out there. It has been in use for many years, showing great results for a lot of prospective candidates in North America. It is mainly used to manage the brain’s production of dopamine. It works almost like an engine coolant, preventing the brain from overheating.

Strangely, this same dopamine in manageable amount; is what we use for most work. Especially to create work in nearly all humans who are gifted enough to harness its potentials. For brain work, dopamine comes into play. For physical work including fight or flight, the body produces adrenaline.

Stress and other factors can break the God-given thermostat in our body which can lead to uncontrollable amounts of dopamine by the brain and excessive amounts of adrenaline produced by the body. If more exists than our body and brain can use, the excess usually attack the body and brain which leads to physi-
cal, mental breakdowns and illnesses.

The treatment is to use various physical and spiritual therapies which includes medication and Agape love to manage and slow down the dopamine and adrenaline production and utilization.

Let no man deceive you, once the thermostat is compromised, management by medications and other therapies can be lifetime. Only Jesus Christ can restore the thermostat and heal excess flow of dopamine by the brain and adrenaline by the body.

On a final note, while dopamine and adrenaline levels are being managed, patients should be highly encouraged not to miss their full sleep or miss taking their medications for more than 48hrs. Any of which can produce excess dopamine and adrenaline levels in the brain and body. Skipping one or two meals is not an issue but skipping meals all day is not a good sign except for ministry approved fasting.

As much as possible, without breaking the bank, meals of their choice should be made for them. For night vigils, it should be optional for now so that sleep routine is not disturbed. If they can sleep a few hours before and after, then let them participate in the vigils.

Let us continue to trust Jesus Christ more and support every mental health patients by loving them more and keeping their Hope alive through Jesus Christ, our Lord and personal Saviour. Amen.

*Originally drafted on February 14, 2018 in transit among the wild dogs of Africa*

Peace by Peace Maker.
AUDIO: SCIENCE; HUMAN SKIN 1

Ni So Ra Ba Ba Se Ke... *(Praying in tongues)*

Glory be to God; glory be to my Father in heaven. Glory be to Jesus. Glory be to the Holy Spirit. Glory be to the Trinity. This is the peacemaker going back to his roots in sciences.

This is more about sound and hearing where myself, my body, my life is a case study. It is a case study of what I am about to talk about. The general concept and belief are that our hearing, that is to receive sound, is done mainly predominantly through the ears. I stand and I beg to differ from that, and I am going to make a conclusion for those who believe and a postulation for those who doubt. So that they can go and prove it out in the lab and when they have the results, they should come back let us check if it is done in truth and honesty.

For me as an individual I am an unusual case that is why I am who I am today I am a peacemaker I am wonderfully and fearfully made by God. So most of the receptors and most of the sensors, it could mean the same thing; receptors or sensors or transmitters, in my body has always function slightly differently from the way I believe other people’s own function because growing up, going to school; elementary, secondary, and maybe tertiary. Well, I played too much. I had difficulty concentrating, in this environment some people say “oh! maybe it is ADHD” or whatever they call it. I do not believe in all that.

Some people are full of energy. They have a lot more going is on inside of them than what the ordinary people have. So sometimes, they must attend to other issues. That is what you will call attention deficit disorder. They get bored easily because they are other more exciting things they’re thinking and programming within their system. With it does not mean they are not paying attention.

I will say this, for me, when I was in school those days or even classes or conferences, I may be distracted or may do multiple tasks at the same time. I have the given talent, the God-given talent. which I think is available to every human being if they position themself right with God, to be able to do multiple things. At times when I am not paying attention to sound or voices or somebody speaking,
does not necessarily mean I am not hearing. To a large extent, the sensory organs in my head and on my skin, I have observed to an extent are able to receive and absorb information. Both pictorial and vocal information or vocal with descriptive components are received properly by the skin and the hair. I would say it like this when we say sound, for example is that energy, The force that goes out in sound and wave. That produces a ripple effect. It goes around and it is the ripples and waves that are received by our receptors and sensory organs and who then interpret it to the form we want it to be.

I am of the opinion and conviction that when sound comes in, it is not only the ear that receives it the body and skin receive it also. Take for example, there’s a vibration or maybe you are in a night club or in the party on the event where the music is loud, do you feel the vibration, you feel the sound or that energy that is emitted from the speakers on your skin. You feel it on your body, your body interprets it. You were taught then about forced vibration. That when gets to a point everything around it starts to vibrate same level when the sound is increased.

So if that is true and sound comes and the vibration and the waves are received and the body is forced to vibrate, somewhat to the sound, at the points in time the body is hearing what the sound is saying or is receiving what the sound is giving out. How can we be sure that certain parts of the sound are not absorbed through our sensory organs, through our body to the central nervous system. Just like the sensory organs in our ears, our body absorbs sound and transmit it into our nervous system. And translate it into what we want.

My conclusion and conviction are that take it as conclusion or take it as prophesy. It is up to you but if you take it as prophesy, you go do the research. Test it, find out. There might be very few people in the world who are like me, but people can develop and harness that energy. If they are not doing it now, then we should find a way to see how they can receive it and hear more.

So, when I hear things and do things, I do not hear it with only my ears, I hear it all over my body. Sometimes too, my sensory system, I put them to sleep to maintain concentration and reduce distraction. The consciousness, the sensory level; sometimes that I receive either through my nose or my ears or my skin, I believe is higher than that of the German Shepherd dog.

So that is my conclusion. I believe humans can receive sound, can hear to a certain extent more than the skin, not just with the ear. If the ear takes it and trans-
mits it to sensory organs, the skin has its own sensory organs and nervous system that can do the same, just like the nose. The nose can hear some sounds apart from smell. Just like the nose can smell things we do not see, the skin can hear things, can sense things. That is why you see sometimes we get goose pimples. The goose pimples are not only from what we feel but also from what we hear. The skin gets its own vibes and responds too accordingly.

Praise God! May the word of the Lord reveal the understanding of his word into your heart. May the Lord that revealed it, concluded it and put it together in my heart give you a clear understanding. May he give you the wisdom to take it to the next level if you are a scientist. May he give you the understanding to know what to do. To prove that it is a correct statement, that it is true. And may we have the understanding based on the revelation to find how we can increase the capacity of our human mind. So that we can do as much as God has designed us to do.

We have a God who never fails
We have a God who never fails
We have a God who never fails
Jesus never fails
Jesus never fails
Forever more

Amen! Jesus never fails
Amen! Jesus never fails
Amen! Jesus never fails
Jesus never fails
Forever more

I stand upon the living God. I stand upon the word of God. I stand upon the trust of God.
I stand upon the love of God. I stand upon the faith of God. I stand upon the hope of God. I stand upon the joy of God. I stand upon this steadfastness of God.
I stand upon the faithfulness of God.

Thank you, Jesus! Thank you, Father! Lord, I thank you for the victory. Thank you for disciplining our enemies. Thank you for subduing them with you love and with power. Thank you for humbling them. Thank you for sending those who refused to be humbled into the bottomless pit. Na ro ka shi ka ra ba...(Praying in
tongues). For in Jesus name we pray. Thank you, Father. Thank you, Lord. 

**Praise the Lord! Praise the Lord!**

I am just concluding this, but I decided to add a little portion to it for those who are Christians. Those are Christians are so primitive, so naive. So afraid. They are even afraid of the Bible they are carrying. They fear everything. Oh! Is this real? Is this not real? You know we must get on with the program and find a way to Connect directly with God. When you hear what is of God you will know immediately, even if you do not know immediately, within a few minutes or a few seconds God will connect you to the truth.

So, do not be afraid. Be open to hear, Be open to hear messages, be open to receive. Some people will be wondering, how is this concerning God? Well, this issue sound I just mentioned to you is based on me putting on two hats. One hat is for Galilee Galileo, my great great uncle. He did a lot of work, a lot of work we are enjoying today. Most of what he did then is the prophecy or postulation; you want it; you do not want it. I have admired him all my life as a scientist and even when I came closer to God, I admire him and appreciate his work even much further.

One of the issues or beef, I have to grind with the Catholic Church today or till God returns and we are going to fight that fight till God returns because of the way they treated Galileo Galilee because of his postulations and prophecies did not match with ”their bible” said. I do not know which Bible they were reading from in the Catholic Church. Their demonic and pedophile bible. Anyhow to cut that short if you are Catholic and you are not involved in those things, please do not be offended. That is the truth and the reality in that ministry, and they are going down by the grace of god.

If you put on the hat of apostle Paul, you must go to the book of 1st Corinthians 13:8-10. It is more of a verse 9 but you must read 8 -10 to get the full contest. Verse 8 says:

” Love never fails. But whether there are prophecies they will fail; whether there be tongues, they will cease; whether there is knowledge, it will vanish away”  
“ vs. 9 - For we know in part, and we prophesy in part”  
“ vs. 10 - But when that which is perfect shall come, then that which is in part shall be done away”
So, what it means is that, when you have a revelation of the word of God and an understanding of the Spirit of God, a lot of things that are not too clear with people that people confuse. These deep mysteries, deep secrets. The love of God that love that will radiate through you allow you to easily understand these things. Without having to destroy the love lab or doing 300 years of PhD or whatever just know that smoke is smoke, or sugar is sugar. God will just give you the answers just like that. That is why I love my God. When you come out of firing line, He will put a coin in your hand, a chocolate bar in your pocket. This is the chocolate bar for today.

You know this sound thing; I have thought about it over the years, but He put it together. Our body can absorb some sound, our body has some sensory cells, have some nervous system. Even when we get goose pimples or the hair are raised or something like that, you know. It is something.

For me, all my body, from my head to my toes is fully charged; fully charged and I can receive this sound, absorb, and sense motions. They are deeper than that and I will not need to go into this because it will be going into a different subject area. Let us just leave it as sound.

Praise God! So now you know. May God help you. May God guide you. May God give you the wisdom to extend this knowledge further. May God give you the wisdom to go to the lab and do something to convince that God is real, God is true and yes! By the time the love comes out everything we know in part will fall aside. May God guide you. May God protect you. May God inspire anybody out there who is a young scientist, to say “yes!” you want to go and prove this.

You may get a Nobel prize; I do not need their price. By God’s grace, you can keep their price. You can keep it for their people. Keep it for the people in their country. I do not need it. Ni ka ra ba ko se...(Praying in tongues). Thank you, Father.

May God bless you. May God keep you. May God sustain you. May your heart be open. May God to be able to convert what you have received in your heart to things in your brain that you will be able to bring out for the physical world to receive. May you be able to manage that control process, that pressure, that urge, that inkling that God has put in you. May you know how to manage it at your level, at where you are and where are your circumstances may have put you now.
God will lift you up. God will sustain you. Keep loving. Keep doing the right thing. It is well with you. Love never fails. When you are with God, you never lose. You are a winner all the time. Be guaranteed that. Be sure of that. I am telling you that for a fact because I have seen so many victories. Just won some major victories in the last few days. It is big. We just thank God because we will continue to win.

No man can stop us. No woman can stop us. No demon can stop us. No devil can stop us. If they come near us. We will use them for breakfast in the spirit. Many have tried but they were lucky to make it back to where they came from. We are going to set fire in their covens. When they go there, they will not find their way to go home.

In this season, if you see anybody falling down and dropping dead, be very careful before you approach the person because you might be held responsible because they may not be able to find what killed the person. They may not be able to find it. People are going to be dropping like chewing gum. Like rotten oranges from trees, rotten mangoes, rotten apples. Be prayerful. Pray that God does not put you in that environment where you must decide what to do. If you must decide, make sure they are one or two witnesses that are not related to you, who can testify of the good thing that you have done to that person.

May God help you. May God bless you. For in Jesus name we pray. Amen.
ABOUT THE BOOK:  
(A PEEP INTO THE DEEP)

This is a little but mighty miracle coin book intended for the deep dark end of medical science to settle once and for all the mysteries in the deep dark end of the human hearts and brains as they relate to every area of human medical science. We took a jab at the dark matter in the outer space briefly just like we did in our book Principles of the Heavens, Earth, and the GALAXY.

No animal, human or plant was hurt when this book was written. Truthfully, so many innocent lives have either been destroyed or taken unnecessarily because of this "little problem". This little wonder of a book is disruptive science and knowledge that should allow a fresh rethink of the existing approach vis-à-vis the freshly revealed approaches through the Holy Spirit which will give a lasting Peace of mind to very many except the usual suspects in the big Pharma's and the hardcore specialists doctors who are fattened by the current status quo despite the pains and costs to the government and the society.

Those who cannot accept the approach of "heart over head" postulated and prophesied here 1 Corinthians 13:8-10 will in no time be seeking relevance in their professions and their communities. If it is rejected primarily on the old boys' network and as a threat to their profession, we will decide if we will carry out a "Prophet Elijah vs Prophets of Baal" or go all the way and ask Jesus Christ for a "Rapture". Please do not get into fights or arguments with anyone regarding this book because the truth will stand, and Agape love will always win. Supreme courts will be our lower limit and the heavens will be our higher limit where we will fight for the truth. Praise God!!! Hallelujah!!!

ABOUT THE AUTHOR

Ademola Usuanlele was the International Liaison of The Virtuous Woman Magazine, was an Assistant Director of Training in Spirit and Life Family Bible Church and Godhead Prayer Ministry. Ademola was a coordinator and Pastoring Disciple in Spirit and Life Family Bible Church and Godhead Prayer Ministry both in Edmonton, Alberta Canada. He was a New Man in Christ.

He was an alternate cell group minister, was an altar steward and was an usher in Winners Chapel International in Edmonton, Alberta Canada. He is a former member of Gideon International. He enjoys Kingdom Advancement Prayers, singing, praising, and serving Jesus Christ our Lord. He also enjoys travelling, working on complex projects, music, reading, mentoring, and learning new languages.

Ademola is married to Christiana “Titilayo”, he has a daughter Pauline and a son Ademola Jnr. He is a past board director of Oliver Centre in Edmonton, Alberta and a former board national treasurer and member Canadian Family Advisory Network (CFAN). He was a co-chair for the Edmonton, Alberta Canada Stollery Children's Hospital's Patient & Family-Centred Care Council (PFCCC).

He is a former section Audit Chair of the Edmonton Section of the American Society for Quality (ASQ). He is the founder and board president of The Pink Shield Charitable Foundation. Ademola Usuanlele was a board director of both the Canadian Council for Africa (Africa) and the Canada-Nigeria Chamber of Commerce.

He is a prolific writer, poet, conceptualist, designer, songwriter and author of many published books and songs in addition to be a published singer. He is an SME and an auditor in many fields/sectors. He bears his God-given name of Peace Maker now as a High Representative of Jesus Christ. He is the first after Jesus Christ to be a Diamond-Studded Golden Eagle. By special grace and favour of God, he is trained in the “arts of the forbidden moves in the physical and spiritual realms” if necessary or required.
ABOUT THE BOOK: (A PEEP INTO THE DEEP)

This is a little but mighty miracle coin book intended for the deep dark end of medical science to settle once and for all the mysteries in the deep dark end of the human hearts and brains as they relate to every area of human medical science. We took a jab at the dark matter in the outer space briefly just like we did in our book Principles of the Heavens, Earth and the GALAXY.

No animal, human or plant was hurt when this book was written. Truthfully, so many innocent lives have either been destroyed or taken unnecessarily because of this "little problem". This little wonder of a book is disruptive science and knowledge that should allow a fresh rethink of the existing approach vis-à-vis the freshly revealed approaches through the Holy Spirit which will give a lasting Peace of mind to very many except the usual suspects in the big Pharma’s and the hardcore specialists doctors who are fattened by the current status quo despite the pains and costs to the government and the society.

Those who cannot accept the approach of "heart over head" postulated and prophesied here 1 Corinthians 13:8-10 will in no time be seeking relevance in their professions and their communities. If it is rejected primarily on the old boys’ network and as a threat to their profession, we will decide if we will carry out a "Prophet Elijah vs Prophets of Balaam" or go all the way and ask Jesus Christ for a "Rapture". Please do not get into fights or arguments with anyone regarding this book because the truth will stand, and Agape love will always win. Supreme courts will be our lower limit and the heavens will be our higher limit where we will fight for the truth. Praise God!!! Hallelujah!!!
